dream, create, achieve

WHY YOUR HOME NEEDS LUSTRE FX?

Offering affordable, unique metal coatings for interior and exterior surfaces, Lustre FX artistically enriches any home building project.

Where sheet-metal or paint finishes may have restricted your creativity in the past Lustre FX challenges the boundaries of traditional building and coating options of the residential market. With cost effective and design friendly solutions - Lustre FX is the future.

Lustre FX coatings can be applied to almost any surface, providing a seamless metal skin, integration and added strength allowing the substrate to be treated as if it were solid metal.

Don't sell your home short... complete your vision, add the distinctive Lustre FX quality to your property giving it the prestige it deserves.

KEY BENEFITS

- can be used outdoors in harsh climates for up to 30 years
- unlimited interior life

DISCOVER THE POSSIBILITIES

Almost any surface can be coated, including but not limited to, ceramics, timber, plaster, fibreglass, MDF, perspex, concrete, foam and even other metals.

Lustre FX coatings are incredibly adaptable: multiple metals can be mixed or layered for interesting effects. High polish, satin, raw and textured finishes are available.

Aluminium, Bronze, Brass, Copper and Iron are the base metals with many variations. Patina options include Rust, Verdigris and Pearl.
